The above Flat School Fee includes the following:

- The basic monthly school fee
- Levies - including FutureKids, SkillsPro, physical development, outings and blessings as well as the PTA levy)
- Learner support materials (including PACEs).

The above Flat School Fee does not include the standard adhoc costs relating to sport entries and transportation, school photos, stationery packs, repeat PACE fees (R140 per PACE), convention and field trips / tours.

In response to the receipt of some requests, from 2020, we are introducing a second payment plan option, whereby the Flat School Fee can be paid over 11 months instead of 12 months. See the column on the right in the table above. Should you choose this option, this would mean that you would pay school fees from January through to November and have no school fees payable in December.

With regards to the FET Phase (Gr 10 - 12), Shanan offers two options with different fee structures:

1. LCA (ACE PACE option — endorsed by Lighthouse Christian Academy, USA). The once-off Grade 12 registration fee is dependent on the Rand/Dollar exchange rate at time of payment.
2. IEB (utilizing the AEE Online Learning Platform). The IEB fees include the cost of the compulsory contact sessions within the year, but excludes the cost of the required textbooks which will be billed separately from 2020. This is due to the considerable variance in textbook prices depending on which subjects are chosen.
