Enrolment Fees + Admin Fees

Administration fees are payable upon handing in of application and enrolment fees upon acceptance of the child in the school. These fees are not refundable.

Compulsory Extras included in fees:

Text books, Compulsory extramural activities, STEM activities, Music, Computer classes, Singapore Maths, and one additional activity (e.g. Art, Glee Club, Sport)

Discount for second learner

A discount of R1000 per learner per year is given for the 2nd child and subsequent children in a family.

Payments

- The school is a self-sufficient entity and receives no financial support from the Church, Department of Education or any other bodies. To manage the school effectively and efficiently, the school relies entirely on school fees to balance the budget, pay staff salaries, operate effectively and maintain a high standard of education.
- Parents are contractually and statutorily compelled to pay school fees as determined annually by the Governing Board of the school. The Annual School Fees are calculated over an 11-month period (January – November) and are payable ***in advance*** before or on the 7th of each month. If you can only pay by the 25th of each month, it is by prior arrangement and the payment of a full month in advance (double payment), which will always reflect positively
- If, for any reason, payment cannot be made by the 7th of each month, a formal, written request must be handed in at the office, reflecting the date on which payment can be made. If this arrangement is approved, it must be adhered to always. Failure of payment on the set date will be treated as non-payment.
- Admission Fee is payable when you hand in the application form. Although the statement for January will only be sent electronically by the 20th, it should be paid by the 7th of January.
- When paying school fees, always quote the account number allocated to you on your monthly statement.
- No extension for late payments will be allowed.
- If fees are in arrears, the School reserves the right to prevent a learner from writing exams, withhold a termly report and art portfolios or cancel the enrolment contract with the parent with immediate effect, according to the conditions of the Parent Contract. This will mean that the learner may no longer attend the school. The non-payment of fees could also result in a learner being placed on the school's waiting list / or not being accepted for the following year. The School also reserves the right to hand over outstanding fees to our attorneys.
- The aim of the above measures is to encourage parents to support the school in being able to spend according to Budget by limiting shortfalls, and this will only be possible when fees are paid promptly.

Early Settlement

If annual tuition fees are settled in full before 31st January of each year, a 5% reduction on the fee is awarded (*see Tuition Fees*)

Debit Orders

The Debit Order system is compulsory for all new enrolments. However, all parents will be encouraged to fill in a Debit Order Form. This will take the burden of remembering to pay timeously off your shoulders in terms of the monthly payment commitments.

Karri App

For payment of school events and class outings, it is compulsory to utilize the '**Karri App**' powered by Nedbank. This App is available on the Google Play or iStore on your mobile phone or tablet. An amount of money can be pre-loaded to an e-wallet via your debit or credit card. The amount can cover the full year and just click pay when you get a notification from Karri. This eliminates the sending cash to school in envelopes or even forgetting about the event. Karri sends regular reminders. You will receive a unique code after which you can download the App and register your child.

An appeal is made to all parents to pay school fees regularly and timeously to empower the school to grow in excellence
